General Provisions

Member Privacy

Our complete **Notice of Privacy Practices** provides a comprehensive overview of the policies and practices we enforce to preserve our members' privacy rights and control use of their health care information, including: the right to authorize release of information; the right to limit access to medical information; protection of oral, written and electronic information; use of data; and information shared with employers. This notice can be downloaded from our Web site at www.bluecrossca.com or obtained by calling Small Group Customer Service at (800) 627-8797.

Utilization Review

The Blue Cross Utilization Review Program helps members receive coverage for appropriate treatment in the appropriate setting. Four review processes are included: 1) Preservice Review assesses medical necessity before services are provided; 2) Admission Review determines at the time of admission if the stay or surgery is Medically Necessary in the event Preservice Review is not conducted; 3) Continued Stay Review determines if a continued stay is Medically Necessary; 4) Retrospective Review determines if the stay or surgery was Medically Necessary after care has been provided if none of the first three reviews were performed. Utilization Review is not the practice of medicine or the provision of medical care to you. Only your doctor can provide you with medical advice and medical care.

Grievances

All complaints and disputes relating to a member's coverage must be resolved in accordance with Blue Cross' grievance procedure. You can report your grievance by phone or in writing; see your Blue Cross ID card for the appropriate contact information. All grievances received by Blue Cross that cannot be resolved by phone (when appropriate) to the mutual satisfaction of the member and Blue Cross will be acknowledged in writing, together with a description of how Blue Cross proposes to resolve the grievance. Grievances that cannot be resolved by these procedures shall be resolved as indicated through binding arbitration, or if the plan you are covered under is subject to the Employee Retirement Income Security Act of 1974 (ERISA), in compliance with ERISA rules.

LEADIN

If the group is subject to ERISA, and a member disagrees with Blue Cross' proposed resolution of a grievance, the member may submit an appeal by phone or in writing, by contacting the phone number or address printed on the letterhead of the Blue Cross response letter.

For the purposes of ERISA, there is one level of appeal. For urgent care requests for benefits, Blue Cross will respond within 72 hours from the date the appeal is received. For pre-service requests for benefits, the member will receive a response within 30 calendar days from the date the appeal is received. For post-service claims, Blue Cross will respond within 60 calendar days from the date the appeal is received.

If the member disagrees with Blue Cross' decision on the appeal, the member may elect to have the dispute settled through alternative resolution options, such as voluntary binding arbitration.

Department of Insurance

Overseeing the industry and protecting the state's insurance consumers is the responsibility of the California Department of Insurance (CDI). The CDI regulates, investigates and audits insurance business to ensure that companies remain solvent and meet their obligations to insurance policyholders. If you have a problem regarding your coverage, please contact Blue Cross first to resolve the issue. If contacts between you (the complainant) and Blue Cross (the Insurer) have failed to produce a satisfactory solution to the problem, you may wish to contact the CDI. They can be reached by writing to the CDI Consumer Affairs Bureau 300 South Spring St. - South Tower, Los Angeles, CA 90013. The CDI also has a toll free phone number (800) 927-HELP (4357) that you may call for assistance.

Binding Arbitration

If the plan is subject to ERISA, any dispute involving an adverse benefit decision must be resolved under ERISA claims procedure rules, and is not subject to mandatory binding arbitration. Members may pursue voluntary binding arbitration after they have completed an appeal under ERISA rules. If the member has another dispute that does not involve an adverse benefit decision, or if the group does not provide a plan that is subject to ERISA, the following provisions apply: Any dispute between the employer and/or the member and Blue Cross must be resolved by binding arbitration (not by lawsuit or trial by jury or other court process, except as California law provides for judicial review of arbitration proceedings), if the amount in dispute exceeds the jurisdictional limit of the Small Claims Court. Under this coverage, both the member and Blue Cross are giving up the right to participate in class arbitration or have any dispute decided in a court of law before a jury.

Medicare

Under TEFRA/DEFRA, Medicare is the primary coverage for groups of less than 20 employees. Blue Cross coverage is considered primary coverage for groups of 20 or more employees. This Blue Cross coverage is not a supplement to Medicare, but provides benefits according to the non-duplication of Medicare clause.

If Medicare is a member's primary health plan, Blue Cross will not provide benefits that duplicate any benefits you are entitled to receive under Medicare. This means that when Medicare is the primary health coverage, benefits are provided in accordance with the benefits of the plan, less any amount paid by Medicare. If you are entitled to Part A and B of Medicare, you will be eligible for non-duplicate Medicare coverage, with supplemental coordination of benefits. However, if you are required to pay the Social Security Administration an additional premium for any part of Medicare, then the above policy will only apply if you are enrolled in that part of Medicare. Note: Medicare-eligible employees/dependents enrolled in plans where Medicare is primary may obtain an Individual Blue Cross of California Medicare Supplement plan with the pre-existing condition exclusion waived.

Coordination of Benefits

The benefits of a member's plan may be reduced if the member has other group health, dental, drug or vision coverage, so that benefits and services the member receives from all group coverages do not exceed 100 percent of the covered expense.

Third-Party Liability

If a member is injured, the responsible party may be legally obligated to pay for medical expenses related to that injury. Blue Cross may recover benefits paid for medical expenses if the member recovers damages from a legally liable third-party. Examples of third-party liability situations include car accidents and work-related injuries.

Voiding Coverage for False and Misleading Information

False or misleading information or failure to submit any required enrollment materials may form the basis for voiding coverage from the date a plan was issued or retroactively adjusting the premium to what it would have been if the correct information had been furnished. No benefits will be paid for any claim submitted if coverage is made void. Premiums already paid for the time period for which coverage was rescinded will be refunded, minus any claims paid.

Incurred Medical Care Ratio

As required by law, we are advising you that Blue Cross of California and its affiliated companies' incurred medical care ratio for 2004 was 80.14 percent. This ratio was calculated after provider discounts were applied.

10 Things You Should Know *About Generic Drugs*

- 1.** Brand-name drugs are protected by patents and supplied by single companies. When the patents expire, other manufacturers may apply to the U.S. Food and Drug Administration (FDA) to produce a generic version of these drugs.
- 2.** Generic drugs are approved and regulated by the FDA. All generic drugs are put through a rigorous, multi-step approval process. From quality and performance to manufacturing and labeling, everything must meet the FDA's high standards.
- 3.** A generic drug has the same strength, quality and performance as its brand-name counterpart.
- 4.** Generic drugs must deliver the same amount of active ingredient (what makes the drug work) in the same timeframe as the brand-name drug.
- 5.** Generic drugs are equal to brand-name drugs in terms of safety and effectiveness.
- 6.** A generic drug is a copy that is the same as a brand-name drug in dosage form, how it is taken, and intended use.
- 7.** The government monitors generic drugs as carefully as it does brand-name drugs.
- 8.** In most cases, generic equivalents and generic alternatives can be safely used to treat the same condition as a brand-name drug.
- 9.** Generic medications are less expensive because generic manufacturers don't have the investment costs that the developer of a new brand-name drug has. This allows generic drug makers to sell their product at substantial discounts.
- 10.** By appropriately using more cost-effective generic medications, members can save money at the time of purchase and help control health care costs.
